

*Designs that add elegance*

**SANITARYWARE CATALOGUE 2022**

## Watertec Sanitaryware. An inspiring journey...

In 1997, Watertec started out as a polymer-based products company and over the years has emerged as a total bathroom and plumbing solutions provider. Today, we are a trusted, well-known brand in the industry which offers products that fulfil the 3H Promise of Health, Hygiene and High Performance.

We're a market leader in the polymer-based bath fittings space and manufacture close to over 32 million units and counting. Our central focus has always been on continuously enhancing and widening the range of products offered - both organically and inorganically.

Environmental stewardship has always been at the forefront of Watertec's mission. Since our inception in 1997, we have been practising environmental responsibility and taking sustainable steps - from the process of materials selection and design to technological application and production methods.

With the view to expand our product range and provide our consumers with the best ceramic bathroom solutions as opposed to substandard brass fittings that were ruling the market then, we started our Sanitaryware range. Its manufacture employs the same basic materials; a set of natural, regenerative substances - clay, kaolin, feldspar and quartz.

Watertec products are sustainable, flawless in design and functionality and value for money. Every piece of ceramic is an example of the highest degree of craftsmanship. Quality manual labour and skills put together result in the thoughtful creation of washbasins, toilet seats, closets and cisterns.

## Stunning performance is a push away!

Our products are engineered with precision to execute the primary objective of facilitating not just elegance but performance too. The technologies and attributes used in designing these products include Vitreous China, Glazing Technologies, Flushing Innovations and Thin Rim.

At Watertec, we ensure an enhanced product quality with a series of stringent quality tests and checks. We use scientifically treated material to manufacture products that promote optimal hygiene in the bath space. We design & engineer innovative designs and state-of-the-art sanitaryware solutions that combine superior quality with high aesthetics and convenience; products that are a lifestyle choice you should not miss out.

### **WATERTEC SANITARYWARE RANGE**

**Flushing Closets | Urinals | Pans**

**Wash Basins | Flushing Cisterns**

## The art of enhancing functionality with technology

**Ceramic vitreous china** is a polycrystalline ceramic product obtained through the high temperature firing of a paste produced from substances like white clays and finely ground minerals like quartz, feldspar and kaolin in triaxial composition.

**Glazing** method enhances the physical performance of glazing on porcelain.

**Nano glaze technology** is a new generation anti-bacterial technology used to seal the microscopic pores of the ceramic surface. This makes it difficult for dirt and grime to settle on its surface.

**Full glaze trap** ensures better flushing and reduces the chances of soil returning to the bowl.

**Snow white technology** uses special pacifiers to enhance the gloss and white finish of the ceramics.

# 360- DEGREE BENEFITS

## OF WATERTEC SANITARYWARE

Eco-friendly

Odourless

Easy to Clean

Back to wall WC to facilitate cleaning and to avoid dust and dirt.

Water-saving

Compact basins and toilet seats

High Performance Flush

Dual Flushing Mechanism

Toilet Seats have a rimless smooth inner wall for greater hygiene and ease of cleaning

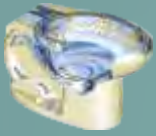

Seat Covers made of High-grade Engineering Polymer – ensures best comfort & fit

Exclusive resins in the seat covers make the products resistant to chemical agents that decolour seat covers

SYPHONIC

WASHDOWN

TORNADO

4D VORTEX

**3D Glaze Coating**

Seals microscopic pores of the ceramic surface

Prevents the growth of bacteria & germ build-up

Prevents staining

**4D Vortex Tornado Flushing**

Creates a vortex with syphonic technique from 4 sides of the bowl

Controls & directs the water stream for thorough cleanliness

**Choosing a closet based on just looks?**

We would say, look for the right flush. At the end of the day, you want the bowl to be well cleaned and sparkling. Our products come with a variety of flushes to ensure that the job is done right. Choose from Syphonic, Washdown, Tornado & 4D Vortex that ensures the bowl is thoroughly cleaned while saving water too!

Anti-bacterial

Anti-fungal

Anti-odour

**FEATURES**

Slim Seat Cover

Soft Closing

Saves More Water

# CERAMIC SANITARYWARE WARRANTY CERTIFICATE

- CERAMIC BODY – 10 YEARS for residential / 5 YEARS for commercial
- MECHANICAL PARTS / SEAT COVERS – 2 YEARS
- EXCLUSIONS – the warranty is not applicable for rubber and plastic parts internal fittings.

## WARRANTY TERMS:

- The warranty is applicable from the date of purchase
- The customer must produce the GST invoice in original to avail warranty service
- The company is not liable for any damage out of faulty installation
- The warranty becomes null / void if installation is done by non-qualified plumber technician or if the installation procedure is not followed as laid down by the company
- The company is not liable for any civil / construction work required during installation of new products / repair of old products
- The company is not liable for any consequential expenses or damages
- The company is not responsible for defects / damages due to transportation/ improper installation / alterations / accidents / misuse or lack of proper maintenance
- If the manufacturing defect is seen within the first year of purchase on the ceramic product, the customer is entitled for free replacement. If the manufacturing defect is seen after one year of purchase and before the warranty period expires the customer has to pay the company on proportion basis on current MRP for new replacement
- WATERTEC will at its choice, repair, replace or make appropriate adjustment where its inspection discloses any such defects occurring in normal usage and is not responsible for installation costs

## CARE AND CLEANING GUIDELINES:

- Use warm water and liquid detergent to clean the surface
- Use powder detergent on a damp cloth to remove any residual plaster / white cement / putty.
- Clean the outside surface of the vitreous china ware with mild soap and warm water
- Wipe the entire surface with a clean, soft cloth
- Do not use abrasive cleansers which may damage the ceramic surface
- Do not allow cleansers with petroleum distillates to sit in for a long period of time on the ceramic surface
- Do not use metal tools or wire brushes to remove any plaster
- Do not use cement at any hollow portion of the vitreous china ware
